

Chic Contemporary Hamptons

RYLO Building and Design specialises in unique and quality new builds and renovations. Director Ryan Pearse, is not only involved in the concept stages, but is on-site during the build with his team of qualified and passionate tradesmen.

With the added expertise of interior designer Lauren Pearse, RYLO offers a seamless design and build service from concept to completion. Alternatively, RYLO can work with clients' current plans to deliver any desired project.

With over 20 years combined experience, the team at RYLO have developed excellent relationships with suppliers and trades, ensuring cost effective quality workmanship of the highest standard.

"The beauty of RYLO is it's a one stop shop. We only take on three to four major renovations or builds a year, therefore I can spend more time on site — making RYLO the most personal service around," says Ryan.

Recently RYLO completed a new build on Brisbane's Bayside for a lovely young couple looking for a 'Hamptons Style' vibe with a contemporary edge. RYLO got clever with the forever loved 'Hamptons Style' and created a stunningly beautiful

home for them that both matched their personal tastes and their desired budget!

RYLO's clients loved the classic profiled 2pac cabinetry and marble benchtops, but wanted to keep it young and fun and incorporate timber in a different way.

As the house was a new build, RYLO wanted to create texture and soul in the bedrooms by adding a feature wall of regency panelling to maintain the originally desired Hamptons vibe.

The finished home is full of clean lines with features of timber and grey to compliment the

polished concrete tile the client had selected for their flooring.

To complete the overall look, the house was styled incorporating elements of Hamptons along with timber to give a completely individual style of the clients' very own, and the result is stunning.

RYLO have the unique ability to take a set style and make it yours incorporating individual preferences to ensure that their clients will always feel at home. For more information on RYLO Building & Design visit rylo.com.au or call 3891 6795 and make all of your home build dreams come true.
